Hello and welcome to AP Chemistry one of the most challenging science courses you will take and love! I am very excited to take this journey with you 😊 Be prepared to work, learn and have a little fun!

Students are expected to do the basic introductory work *throughout* the summer to ensure your chemistry knowledge & skills are sharp & you are prepared for the rigorous pace of the AP Chemistry course. Please consider each assignment carefully and do your best to use the time in the summer to commit to memory any items that need memorization (solubility rules, polyatomic ions with charges, element names and oxidation states...). Also use the time in the summer to brush up on concepts that were shaky or rusty from first year chemistry so your time in class can be devoted to class understanding, applying and mastering new and difficult concepts. This is especially important this summer after our quarantined year. I will be designing many lessons & activities to help you be sure you are where you need to be in order to be prepared for the rigorous AP Chemistry class.

The summer assignments are broken into weekly assignments designed to allow you the freedom to focus on small specific topics at a time. There is **MANY VARIETIES** of materials to be used for review, reteaching, practicing and quizzing concepts. You will receive an **OVERALL** incentivized grade, in the fall, for your effort and time spent on assignments. I can see the time spent online working to prepare! I expect you to spend ample time reviewing each topic and you will receive incentive points accordingly. Doing all work at the last minute will not earn you these points! You need to keep up and work consistently throughout the summer.

**DON'T BE CONCERNED WITH GRADES ON SUMMER WORK !!!!**

**You do not have to get everything right...**

**YOUR GOAL IS TO BE AS PREPARED AS YOU CAN FOR AP**  
**CHEMISTRY CLASS IN THE FALL!!!**

**first exam of the year** will include all materials reviewed over the summer!

**REMEMBER**

***all AP chemistry summer assignments will be listed on canvas and reminders sent out via remind. So.... join now if you did not at the start of this letter or you will miss out!***

**Did I mention ...YOU WILL HAVE TO WORK HARD!!!!**

**I cannot wait to meet all of you this fall!**

*Mrs. Rinaudo*
